

Pollution monitor 3500+

Pollution monitors for collecting gases and vapours in the ambient atmosphere. Ideal for detecting pollutant concentration in the workplace. The 3M® Pollution monitor is equipped with a single charcoal adsorbent wafer that binds pollutants in the air by means of diffusion.

- Suitable for personal and area monitoring
- Easy to use: the pollution monitor can simply be clipped onto clothing
- Small and lightweight

Type	For	PK	Cat. No.
3500+	Organic vapours	1	6.320 276
3501+	Organic vapours, high sampling rate	1	6.320 277
3551+	Ethylene oxide	1	6.320 278
