

Blower Respiratory Protection Systems 3M®; Versaflo®, Sets

The belt-mounted blower units of the Versaflo® series enable efficient work through long-life batteries, intelligent chargers and practical cleaning and storage kits. TR-800 Series is approved to Zone 0 requirements and so may be suitable for areas where potentially explosive atmospheres are expected and permanent in normal operations.

Starter kits include all the essential system components you need to get started: Blower unit, battery, belt, charger and standard accessories. You can add the head section and other accessories depending on the area of application.

Type	Type of filter	Sort of filter	Weight kg	PK	Cat. No.
